

Volunteers Needed for a Sampling of Home-Grown Produce in Anaconda!

At the request of the community, the U.S. Environmental Protection Agency (EPA) will be conducting sampling in Anaconda this summer to evaluate metals uptake in home-grown produce.

If you are interested in having your home-grown vegetables and/or fruits sampled—at no cost to you—**please contact EPA's contractor, CDM Smith, by August 15, 2018.**

Please call **Nancy Podolinsky** at (406) 441-1471 or send her an email at podolinskyna@CDMsmith.com.
